WARNING: READ REFORE USING YOUR PLAYSTATION® GAME CONSOLE. A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights.

Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions -IMMEDIATELY discontinue use and consult your physician before resuming play. WARNING TO OWNERS OF PROJECTION TELEVISIONS-

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless

it is of the LCD type. Otherwise, it may permanently damage your TV screen. **USE OF UNOFFICIAL PRODUCT:**

The use of unofficial products and peripherials may damage your PlayStation game console and invalidate your console warranty.

HANDLING YOUR PLAYSTATION DISC:

. This compact disc is intended for use only with the PlayStation game console.

- . Do not bend it, crush it or submerge it in liquids
- . Do not leave it in direct sunlight or near a radiator or other source of heat.
- . Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

SETTING UP:

Set up your Console according to the Instruction in the Instruction in the Instruction Manual. Insert the Instruction Manual. Insert the Instruction Administration of the Instruction Manual. Insert the Console ON at the POWER button. Do not Insert or remove persphereds or MEMORY CARDs once the power is turned on. If you power is turned on. If you then the Insert in the Insert is a free block on your MEMORY CARD before commencing play.

CONTROLS:

If you are using an (DUALSHOCK") Analog Controller, this game can be played using the directional buttons or the left stick. When using the left stick, ensure the AHALOG mode switch is on (the LED will light up Red), PLEASE NOTE: The vibration function of the (DUALSHOCK") Analog Controller is supported in this game.

In case you unplug a controller or Multi Tap that is currently used during the game, a controller status display pops up and shows controllers and Multi Taps that are needed to continue playing in red. After you have plugged in the missing components, press the START button to

missing components, press the START button to enter the pause menu, and then select the continue item to return to the game.

1. MULTITAP

CAUTION

When using the Multi Tap, at least one controller must be connected to controller port 1-A or port 2-A! If you want to use a MEMORY CARD for saving, and the Multi Tap is plugged into controller port 1, you need to plug the MEMORY CARD into port 1-A of the Multi Tap.

2. DIRECTIONAL BUTTONS - MOVEMENT:

In this manual, A, Y, 4, P, ore used to denote the direction of both the directional buttons and the left stick. These are the default controls. You can reconfigure the controls of the left stick of the Analog Controller (DUALSHOCK) to your preferred settings via the DUALSHOCK potion in the OPTIONS menu.

3. BASIC ACTIONS:

MEMORY CARDS - SAVING AND LOADING

After being knocked down too often or finishing the game, you will be asked whether you want to save the scores to MEMORY CARD. This will also save up to the level you have played so far, so that you do not have to play all the previous levels again, in case you did not finish the level successfully.

When you save a level this way, you can easily select any level up to the one you played last, just be sure that you have the MEMORY CARD that was used for saving in MEMORY CARD stat I when you start inspector Gadget.

You will then be presented with a level selection screen each time you start a game. Use the directional buttons to select the level you want to play, and press the X button to start that level.

Note that you cannot load or save the exact status of the current level, you can only save up to the level you have played so far.

MISSION

In his quest for power, the evil Doctor CLAW tries to reach for total world domination. To achieve this, he produces mind crystals in his space station, and sends them to earth where they fall from the sky. These mind crystals turn everybody who stands near them for too long into minders stayes.

Your mission is to dissolve all of Doctor CLAW's mind crystals in five different scenarios before they turn everyone into one of Doctor CLAW's mindless slaves. If Doctor CLAW manages to kidnap Penny and Brain, you have to make your way to their jail cell and free them before the crystals take effect on their minds.

In this case, your main goal is not to dissolve the crystals, but to free your friends as quickly as possible.

Doctor CLAW has employed many MAD agents to defend his precious mind crystals. The blue MAD agents are quite stupid as opposed to the red sples who can quickly find you. But be warned, sometimes the red sples are disguisted as the MAD agents or other characters. The crystals can be dissolved by combining rows of at least three crystals of the same colour. The multicoloured crystals work as jokers: they can be combined with all the other colours to make rows of crystals is dissolve. The more crystals you dissolve at the same time, and the more points would be some time, and the more lime remains after finishing a level, the more points would be some time.

In each level, you have a certain amount of time to dissolve the mind crystals before they take effect and you lose that level. With each dissolved crystal, this time extends a bit, because less crystals have less influence, and thus it have longer for them to take effect.

POINTS

In all modes, the dissolved crystals turn into coins that give you points.

- · Bronze coin- 1 point.
- Silver coin- 10 points, Dissolve 4 crystals at the same time to get these.

Gold coin 50 points. Dissolve 5 or more crystals at the same time to get these.
You will get an extra life every 500 points:

- 200 points in easy mode.
- · 300 points in normal mode.

500 points in hard mode.

Singleplayer and cooperative multiplayer modes:

After finishing a level, the remaining seconds count as follows:

- Difficulty "easy": 10 seconds=1 point.
- . Difficulty "normal": 2 seconds=1 point.
- Difficulty "hard": 1 seconds=10 points.

 Multiplayer mode:

 Heart— 7 points. The heart appears only in multiplayer mode when someone gets knocked down

CHARACTERS

INSPECTOR GADGET

He must save the world from Doctor CLAW and his agents. He is the only character you can control in singleplayer mode.

PENNY Inspector Gadget's niece.

RDAIN Penny's dog.

All opponents will knock you down when they bump into you or vice versa.

MAD AGENT

This type of agent is quite stupid. They just run ground until they bump into you. The only place where they seem to wake up is the mono rail where they are trying to take hold of you by throwing a net towards you.

CLOWN In the circus the spy is disquised as a clown

The spy is more intelligent and as soon as he has found a way to you, he will start running in your direction. Sometimes, the spy is disquised as a normal MAD agent, so do not only watch the clothes of your opponents, but their behaviour, too.

GADGETS

Inspector Gadget can make use of some gadgets, which help him to fulfil his task.

HAMMER-HAT PROPELLER-HAT With the hammer-hat This hot lets Inspector Godget Inspector Gadget can knock fly for a short time. out the MAD agents before Heathe V button to land Do they knock him out. The not land on any obstacle or hammer-hat can be used you will crash. Be sure not to five times before it is used up. run out of fuel (indicated by a Press the Y button to activate small har beneath Inspector

ROLLER SKATES

These greatly speed up Inspector Gadaet's movement, but are also difficult to bandle Press the X button to remove them

Sometimes, Inspector Gadget encounters one of the following items:

can open locked doors by

walking up to them, and
