GAME STORY

Princess Tina is lost! She's stranded somewhere on one of eight islands, and, as the somewhat heroic Master Higgins, it's your job to find her. But be careful - each island is guarded by an enormous creature that just might be hungry!

Fortunately, you've got a little help. There are four kinds of friendly dinosaurs waiting to give you a lift. They're stuck in eggs that you'll need to hatch!

Hidden eggs are scattered all over the islands. By finding and breaking them open, you might get a bonus, or even a secret way to the next island! Just don't eat the eggplant...

So hop on one of your prehistoric pals, and ride your way to Tina's rescue!

HOW TO PLAY

PLOT: You, as Master Higgins, must explore 8 islands, and defeat 9 monsters to find Tina. On each island, there are several areas to discover.

ENERGY: When you begin each area, you have a full Energy Bar. It is displayed on the bottom of the screen between your score and the number of lives you have left. The Energy Bar will continuously go down as you play. To keep it full, you must eat fruit or drink milk. Fruit appears regularly in almost every area. You will receive points at the end of each area based on how much energy you have.

EGGS: When you first start playing, you won't have any weapons or items. But as you explore the islands, you'll find eggs that might contain weapons or items. To open an egg, jump on it. If you have a weapon, you can also shoot an egg to open it. Eggs can contain several different items, such as milk bottles, axes, dinosaurs, and even keys that lead to bonus rounds and secret rooms!

HOW TO PLAY cont.

There are also hidden eggs in some areas. To try to find a hidden egg, shoot your axe or shoot with the dinosaurs. If you hear a sound that sounds like you just hit an enemy, and you also see your "bullets" disappear in mid-air, go to that spot and jump. When you jump, you should make an egg appear. You can break the egg open as usual.

Hint: Shoot birds to make some of them drop eggs!

Finally, there are bonus eggs at the end of each area. To open one, simply jump into it. These eggs will only contain either extra points or 1-up's.

ITEM SELECT: At the beginning of each area, you will see an item select screen. This screen allows you to use items that you have collected throughout the game. You can collect axes and each of the dinosaurs, but only you can store up to 9 of each. You cannot collect skateboards. To store a dinosaur or axe that Master Higgins is using, press the B button. A picture of the item will appear on the bottom of the screen. the number of those items in storage will be displayed below the picture.

HOW TO PLAY cont.

You may use up to 1 dinosaur and 1 axe at a time. To select them, use either the directional pad or the select button. When the white dot is above the dinosaur or axe you desire, press the A button. When your storage space for a dinosaur or axe is empty, an egg will appear in its place.

Note: When you first start the game, you will not have any items in storage. You will only see pictures of 5 eggs.

HOW TO PLAY cont.
