STORY

Ganryu Island, April 13, 1612.

The showdown of the century, between master swordsmen Musashi Miyamoto and Sasaki Kojiro.

Just before the battle, Musashi challenged himself to use a wooden longsword to confront Kojiro's sword and end its threat forever.

Kojiro's blade flashed, aimed at Musashi's legs.

Musashi jumped aside, and launched an all-or-nothing attack on his opponent's head.

With Kojiro injured, nearing his last breath, Musashi chose not to continue and end his adversary's life.

Instead, he left, satisfied with his victory.

However, his students then jumped out from where they had been hiding. Incensed at Musashi's leniency, they stabbed Kojiro themselves.

Indignant at such a dishonorable death, Kojiro has returned from the realm of the dead, driven by his violent bitterness and rage. He has come for revenge against Musashi, whom he truly despises...

In Ganryu, players can choose between the legendary swordsman Musashi and the female ninja Suzume. Making skilled use of swords, martial arts, and clawed talons, they fight to free Musashi's beloved, Otsu, from her captivity at the hands of a fiendish group of ninjas.
