STARTING UP

1. Set up your Super Nintendo as described in its instruction manual. Plug in Controller 1. Note that *Cannon Fodder* is for one player only.
2. Ensure the Power Switch is set to OFF. Insert the *Cannon Fodder* Cartridge, its label facing towards you, into the Super Nintendo and press it down firmly.
3. Push the Power Switch to ON. After a few seconds, the Nintendo Screen will appear. When the Title Screen is shown you are ready to play *Cannon Fodder*!

IMPORTANT! If the Nintendo Screen doesn't appear, push the Power Switch to OFF. Ensure your Super Nintendo is set up correctly and the *Cannon Fodder* Cartridge is properly inserted. Then push the Power Switch to ON again. Always ensure the Power Switch is set to OFF before inserting or removing the *Cannon Fodder* Cartridge.

TAKE CONTROL!

Before you begin to play, take the time to familiarise yourself with the movements and functions of the Controller.

THE TITLE SCREEN

When you see the Title Screen you are ready to play *Cannon Fodder*.

The Title Screen

- Press the Start Button to call up the Boot Hill screen.

FROM CONSCRIPTS TO TROOPERS

Before you get to play, you need to call up some fit young men to become troopers. As luck would have it, over at Boot Hill there is a queue of some 360 eager conscripts waiting to go to war - but only 15 of them are allowed to volunteer for each mission. Can you see them coming over the hill? Fortunately for all concerned, the innocent are added to the experienced troop of survivors from previous missions.

Boot Hill

There are 24 missions to complete, each one with a different terrain and objective and split into a maximum of six phases. For more intimate details see **Know Your Mission Profiles** and **Know Your Terrain** on page 15. The number of kills for and against you are represented by **HOME** and **AWAY** respectively.

- Press the Start Button to begin play.

WHAT YOU CAN EXPECT TO SEE IN PLAY

All the action takes place in the playfield which takes up the best part of the screen. Here are some of the things you will see ...

CONTROLLING TROOPERS

You do not directly control troopers but instead determine their behaviour thanks to a remarkable interfacing technique involving a Controller, a pointer, and a troop leader. Troopers will only follow their leader but can be encouraged to run around in circles, shoot anything that moves, throw grenades, shoot bazookas, drive Tanx, fly Choppas, split up and do their own thing, and die.

All troopers start their miserable military lives as Privates. Their ranks increase for every phase they somehow survive, but their promotion only happens when the mission is complete. After every three missions, the raw recruits are higher in rank simply because they have already received extra battle training. The rank of the troop leader is shown above his head, just so you know who's in charge.

Note that the bullets fired by your troopers are clever. They will not kill a fellow trooper - unless he is wounded and squirming around on the ground in agony. However, it must also be noted that all other weaponry kills everyone, regardless of what side they are on.

THE STATUS PANEL

It does more than inform ...

THE TROOP'S LOGO

GRENADES

TROOP TROOPERS

BAZOOKAS

TROOP STATUS

THE TROOP'S LOGO Shows the logo of the troop. There can be a maximum of three different troops - see **Form A New Troop (Or Two)** on page 12.

GRENADES Shows whether or not the troop has any grenades and, if so, how many. At first the troop has no grenades. Extra grenades are found in boxes of four - just like the one shown here. Pick them up - and be careful not to blow them up. Note that, in the interests of public safety, from the phase entitled 'Pier Pressure' onwards, each trooper is given two grenades - free of charge.

BAZOOKAS Not to be confused with the crude trombone-like musical instruments of the same name - or, indeed, bazoomas, which are something else entirely - these bazookas are weapons of war. This symbol shows whether or not the troop has any bazookas and, if so, how many. At first the troop has no bazookas but a keen eye will soon spot the barrels - just like the one shown here - in which four bazookas are stored. Pick them up - and be careful not to blow them up. Note that, in the interests of public safety, from the phase entitled 'My Beautiful Skidoo' onwards, each trooper is given a free bazooka.

TROOP STATUS Shows whether the troop is on foot or in a vehicle. This box is highlighted when the troop is active.

TROOP TROOPERS The names of the troopers in the troop are shown along with their ranks, in order of importance, with the leader at the top.

THE POINTER

This is the aforementioned pointer used to determine the behaviour of your troopers (and troops). As you will see, the pointer changes to reflect one of three types of trooper conduct:

**Trooper (or Troop) Destination
Determination Pointer**

Weapon Destination Determination Crosshair

**Vehicle In, Out
(And Shake It All About)
Pointers**

- Press the Control Pad to move the pointer around the screen.

MOVING TROOPS

Move the pointer around the screen until its tip touches the desired destination. Note the way that you can view the immediate area surrounding the active troop.

- Press the A Button to make the troop leader move towards the pointer's tip. The rest of the troop will follow in rank and file.

USING WEAPONS

It couldn't be simpler ...

- Press the B Button to turn the pointer into a crosshair and make the trooper or troop shoot at the centre of the crosshair.
- Press and hold the B Button then press the A Button to make the troop leader throw a grenade or fire his bazooka at the centre of the crosshair.

USING VEHICLES

Five types of vehicle become available in *Cannon Fodder*. Each vehicle holds up to eight troopers. For details of the vehicles and their special functions, see **Know Your Vehicles** on page 17.

BOARDING VEHICLES

Move the pointer around the screen until its tip touches the desired vehicle. The pointer will change to show that the empty vehicle may be boarded.

- Press the A Button to make the trooper (or troop) board the vehicle.
- Press and hold the A Button to make the vehicle move towards the trooper destination determination pointer. The longer the A Button is held down, the faster the vehicle will travel.
- Press the B Button to make the trooper (or troop) shoot the vehicle's weapon (if it has one). Note that grenades and bazookas cannot be used while inside a vehicle.

LEAVING VEHICLES

Move the pointer until its tip touches the occupied vehicle. The pointer will change to show that the occupied vehicle may be abandoned.

- Press the A Button to make the trooper (or troop) leave the vehicle.

A LITTLE WHITE LIE

Actually, the pointer has a fourth state. When a trooper (or troop) is in a Choppa flying above the terrain, touching the Choppa with the pointer will change it into a 'The Choppa Can Land Symbol' - just like the one shown here. This means the Choppa can land.

The Choppa Can Land symbol

- Press the A Button when the 'The Choppa Can Land Symbol' is shown to make the Choppa land. Once the Choppa has landed, select it to make the troop disembark.

FORM A NEW TROOP (OR TWO)

There are times when the strategy dictates that the troopers split up - perhaps to execute a classic 'pincer movement'. So long as you have enough troopers you can make a maximum of two new troops from the original Snake Troop, and those are: Eagle Troop and Panther Troop.

- Press the Start Button to access the Status Panel.
- Use the pointer to select the names of the troopers you'd like to form a new troop (the names will be highlighted). Notice that the troop's logo has split in two.
- Select the troop's logo to form a new troop with the troopers whose names were highlighted.
- Select a troop logo then press the Start Button to resume play in control of the active troop.

For your convenience, there's no need to access the Status Panel to choose a troop when more than one has been formed.

- Press the L or R Button to take control of another troop.

Note that new troops may be formed inside a vehicle, but only the highlighted troop will exit the vehicle.

SHARE AND SHARE ALIKE

Hold on - who takes all the grenades and bazookas when a troop splits? It's up to you to decide. Notice that when you split a troop, any grenades and bazookas are outlined. By selecting the grenades or bazookas, the outline changes to reflect the quantity of weapons - all, half or none - that the new troop will take.

- The solid outline represents all the weapons.
- The dotted outline represents half of the weapons.
- No outline represents none of the weapons.

REGROUPING TROOPS

To bring separate troops together simply walk them into each other whereupon the troopers will automatically regroup as a single troop.

A MISSION REMINDER

Select the map at the bottom of the Status Panel for an overview of the area and the active troop's position (indicated by a big red cross). Note that enemy troops are not shown on this map - it'd spoil the surprise. Alternatively ...

- Press the Y Button to call up the map.

The map shows an overview of the area

- Press any Button to return to play.

MISSION COMPLETE

You did it - you saved the day. And you can save your state of play, too ... At the end of every mission you are returned to Boot Hill to admire the view. But did you know that there's a hidden Options Screen to find?

- Press the Select Button to call up the Options Screen.

Use the Control Pad to move the pointer between the options.

- Press any Button to select the option.

LOAD GAME At the end of every mission a special five-letter pass code is created - you can see the first one by selecting **SAVE GAME**. The pass code contains information about the state of play so you can return to this exact point at a later date. Having selected **LOAD GAME**, the Load Game screen is presented. The five boxes are used to hold the letters forming the pass code, while the **ENTER** box is used to enter the pass code - but first ...

- Press the A or B button to change the letter.
- Press the Control Pad left or right to move through the letters.

If the pass code is invalid, you will be told. Select **LOAD GAME** and try again.

SAVE GAME Select this option to see the current pass code. Don't forget to write it down!

- Press any Button to return to Boot Hill.

KEY DEFINE Here's where you can change the functions of the four key Buttons: MOVE, SHOOT, MAP and WEAPON (as in grenades and bazookas).

STEREO OFF Or choose **ON** if your Super Nintendo is connected to stereo speakers.

EXIT Select this to return to Boot Hill.

HOLD IT!

If you need to halt your assault ...

- Press the Start Button to access the Status Panel and freeze the action.
- Press the Start Button when the action is frozen to resume play.

TRY AGAIN

So you screwed up? Never mind, surrender and try again. But wait! What if you have some remaining troopers but, say, not enough grenades or inclination to continue and you want to try again?

- Select the White Flag on the Status Panel and press any Button (except Start) twice quickly to surrender. Your surviving troopers will be available to replay the phase.

HIGH SCORING HEROES

When a trooper dispatches an enemy, one point is added to his personal score. Note that all grenades, bazookas and vehicle weapons are

activated by the troop leader, so he gets all the credit (and points, of course). When a trooper dies, his performance is not forgotten - unless he didn't score enough points to register with the High Scoring Heroes Bureau (who manage the High Scoring Heroes Table).

KNOW YOUR MISSION PROFILES

Those seven primary objectives are revealed in full ...

KILL ALL ENEMY Including troopers, enemy BigGunz, vehicles, buildings - and the rest.

DESTROY ENEMY BUILDINGS All those buildings with doors from which the enemy emerge.

DESTROY ENEMY FACTORY Or Computer even.

RESCUE ALL HOSTAGES Return up to four hostages to safety. Free a hostage by shooting his (or her) captor, then take the trooper (or troop) up to the hostage to 'tag' him (or her). The hostage will follow the trooper (or troop) to the nearest friendly MASH outpost - so take him (or her) there as quickly as possible.

KIDNAP ENEMY LEADER This cunning fellow is dressed to look like a hostage, but he's not. Don't be angry and kill him - take him to the nearest allied outpost.

PROTECT ALL CIVILIANS Whatever happens, don't let any civilians die.

GET CIVILIANS HOME Innocent civilians are caged like wild animals. Destroy their barricade to free them then ensure that they make it home alive.

KNOW YOUR TERRAIN

There are five different climes to conquer in Cannon Fodder - and here's the low-down on all of them ...

THE JUNGLE

Look out for the following:

TREES And plants for that matter. They aren't just here for decoration - they also provide much-needed cover for exposed troopers.

Note that you can blow up some trees (and plants).

QUICKSAND Or 'sucky sucky' as it's known. Every time we put up warning signs they disappeared, so beware.

WATER It's either shallow or deep. Troopers cannot use their weapons when they are in deep water - because they need to swim across it.

BIRDS You can't shoot them down - or can you? If not, why not? Otherwise, why are they here? Or are they simply red herrings?

ARCTIC WASTES

IGLOOS Packed with Eskimos - or are they the enemy?

SNOWMEN They often hold a surprise.

ICE Perfect training ground for the skaters of this world, but not for the troopers in Cannon Fodder.

THE DESERT

CHASMS They make the Cheddar Gorge look like a small crack - so there's no good reason for your troopers to fall into one.

HANGARS Not for the troopers' clothes you understand, but for cover from enemy fire.

CACTI Very scarce thanks to the even scarcer giant cactus-eating rodents.

MOORLANDS

COUNTRY COTTAGES Are they inhabited? Are they indestructible?

STONE BRIDGES Are they merely here for the crossing?

B-ROADS There's a network of them.

THE UNDERGROUND BASE

DOORS Destroy them to make progress.

BARRIERS Destroy them to make progress.

ENEMY LOCKERS, CHANGING ROOMS They lead to ...

THE SEWERS Fancy a dip?

KNOW YOUR VEHICLES

Note that the enemy versions bear red flashing lights.

CHOPPAS Join the birds in the sky and flit above the treetops. There are two types of Choppa: one is an unarmed Transporta, the other is a Killa brimming to the teeth with bombs, rockets or heat-seeking missiles. A Choppa in the air can only be shot down by rockets or heat-seeking missiles. Choppas are more vulnerable on the ground.

TANX They shoot shells (and not of the seaside variety - haheho). Tanx are slow but hardy, being impervious to all weapons except rockets, heat-seeking missiles and shells.

JEEPS There are two types: one is an unarmed transport vehicle, the other has a front-mounted machine gun.

SKIDOOS Just like Jeeps really, except Skidoos are suitable for travelling across snow and ice.

BIGGUNZ Fixed turrets that fire either rockets or shells and vary in defensive strength depending on the terrain. And, yes, they aren't vehicles. So what?

KNOW YOUR ENEMY

Pay careful attention to the following information - it may help save the lives of innocent troopers.

GRUNTS Your basic enemy trooper. Most of them are armed with machine guns, but some of them carry grenades.

SNIPERS Tricky blighter, Johnny Sniper - he hides in the undergrowth and takes pot shots with his bazooka at the player's troopers.

ARTILLERY They handle BigGunz and Tanx which are best destroyed.

ENGINEERS They command Jeeps and Skidoos. Watch out! Some of them are armed!

AIR FORCE They handle Choppas which you should blow up as soon as possible. Beware! When an enemy Choppa parks itself in your area, it will let out Grunts.

KNOW YOUR SUPA DUPA BOOSTAS

When you see any of the following gold-coloured Supa Dupa Boostas (which won't be often because they are in such demand), pick it up for a Special Feature!

SUPA DUPA MISSILE BOOSTA A complement of 50 heat-seeking missiles are yours, with our compliments.

SUPA DUPA BULLET-PROOF-VESTA BOOSTA Makes a trooper invincible from bullets and explosives for the duration of the phase.

SUPA DUPA RANKA BOOSTA The trooper becomes an instant General - and will probably take control of the troop, too.

SUPA DUPA TROOPER BOOSTA Excellent value - it gives the trooper a Missile Boosta, Bullet-Proof-Vesta Boosta AND a Ranka Boosta!

SUPA DUPA TROOP BOOSTA Incredible - it gives the whole troop a Trooper Boosta!

KNOW YOUR RANKS

Just the thing to help you avoid embarrassing faux pas at après battle parties. Note that the higher a trooper's rank, the better the gravestone he receives on Boot Hill.

BE THE FITTEST

And survive with the following handy hints:

- Don't wait until you see the whites of their eyes - shoot them before they shoot you.
- Look out for secret hidden zones where special equipment may be found.
- Please don't leave the screaming wounded to die. Bite the bullet, so to speak, and do the decent thing: finish them off.
- Wise men say that fools rush in where angels fear to tread, so look before you leap, so to speak, because the grass is not always greener on the other side of the hill.
- Watch out for mines and mantraps - they make a terrible mess.
- This one'll kill ya ... When you have shot a man and he's lying there, dead, shoot him some more to make him jump around like a bunny.
- Remember: troopers cannot use their weapons when swimming through deep water. Note that troopers also move slower through water, so make sure there are no enemy troopers in range before getting wet.
- Troopers always walk in a straight line, so remember to steer them around any obstructions such as trees.
- Only when a building is destroyed will the enemy troopers stop piling out of it.
- Shooting explosives is not wise - try to pick them up instead.
- You may think the mission is over, but it isn't until you are told it's complete, so scour the area for hidden enemy troopers.
- And on a more serious note: don't try this at home, kids, because real war is not a game; real war, as *Cannon Fodder* demonstrates in its own quirky little way, is a senseless waste of human resources and lives. We hope that you never have to find out the hard way.
