GET TOUGH!

LOADING

1. Make sure the GAME BOY® power switch is OFF.
2. Insert the BART vs. THE JUGGERNAUTS™ game pak as described in your Nintendo® GAME BOY® instruction manual.
3. Turn the power switch ON. You will then see the BART vs. THE JUGGERNAUTS title screen. Press ANY BUTTON. To skip any of the credit screens or your hosts Dr. Marvin Monroe and *Smartline* anchor, Kent Brockman, press ANY BUTTON again. To advance through through the text screen by screen, press the A BUTTON.

EVENT SELECTION... PICK IT AND WIN IT!

The *Juggernauts* game show consists of 4 weeks of events. Each week the lucky contestant competes in all the available events in an attempt to win enough cash to come back the following week, or at least to cover the tickets your friends and family shelled out for. The amount of cash needed to qualify is shown at the start of each week.

How much cash you rake in for any event varies. Winning guarantees a cash bonanza, but speed against-the-clock or points scored also hike the stakes. As for those losers too weak to beat a 238lb., muscle covered Juggernaut, cash can also be won by successfully using any

of the "cheats" made available as you go.

Note: If you win every event in any one week, you will also get to play the bonus event. Cash won in any week also carries over to the next. So big gains in one week can make up for close shaves in another.

To see which events are available for the week, press the A BUTTON when you see Kent and Bart beside the events board. The board will then appear in close up with the available events flashing as follows:

WEEK 1:

Dr. Marvin Monroe's Hop, Skip, and Fry

Captain Lance Murdock's Skateboard Bash & Crash

WEEK 2:

Dr. Marvin Monroe's Hop, Skip, and Fry

The Springfield Nuclear Power Plant Bop 'till You Drop

Moe's Tavern Shove Fest

WEEK 3:

Captain Lance Murdock's Skateboard Bash & Crash

The Krustyland Hammer Slammer

WEEK 4:

The Krustyland Hammer Slammer

Dr. Marvin Monroe's Hop, Skip, and Fry

The Kwik-E-Mart Doggie Dodge

The Springfield Nuclear Power Plant Bop 'till You Drop

Herman's Military Minefield Mayhem

To pick an event, when it lights up, press the A BUTTON.

The sponsor of the event will then give you a hint to help you win, some good advice, or maybe just a sales pitch. To scroll through their message, press the A BUTTON. To jump straight into the action, press the B BUTTON.

THE EVENTS

Dr. Marvin Monroe's HOP, SKIP, AND FRY!

filled challenge is that stepping on any of the black squares sends a massive and virtually lethal dose of high voltage electricity surging through your body.

Too easy? Then look out for two more electrifying hazards. Two Juggernauts, Chunky and Extra Chunky, will also be manning the grid. If they get to you, they'll flip you in the air. Land on a black square and you're cooked to a crisp. Shocked? Try this—when the static charge balls at the bottom of the screen spark, the white squares and black squares swap places! So tread carefully...or get ready to amuse friends and relatives with that light bulb-in-your-mouth trick for the rest of your life!

CAPTAIN LANCE MURDOCK'S SKATEBOARD CRASH & BASH

All the skateboarding inspiration Bart could ever need, Captain Lance Murdock gave him right from his hospital bed. Now it's time to put those "fly in the face of danger and have good insurance" words of wisdom to the test.

Skate down the launch ramp fast enough to take off at the end, and smack a waiting Juggernaut right off his platform. However, not only does the Juggernaut have a shield with which to deflect your attack and send you hurtling into the pit below, but a bunch of his pals will try to slow your skateboarding by smashing their fists through the ramp and grabbing your board. So skate rad, and avoid the Juggernaut fists, slippery pizzas, and a speed stealing grate. Once aloft, blast that Juggernaut with pinpoint targeting!

SPRINGFIELD NUCLEAR POWER PLANT BOP 'TILL YOU DROP

Jousting has entered into the atomic age! Pound a Juggernaut with plutonium rod jousting sticks atop the twin towers of the power plant.

As the two indicators at the bottom left and right of the screen show, it takes 5 hits to send a contestant off the tower and into the bubbling sea of nuclear

waste below. However, if enough time elapses between hits, both Bart and the Juggernaut can "win back" the hits against them.

Note: Block the Juggernaut's plutonium rod with your own attack moves, or dodge it by ducking, jumping, or moving back.

MOE'S TAVERN SHOVE FEST

Get ready for wrestling action like never before: no ref, no rules, and no rope! In a pure power, against-the-clock battle to knock your opponent out of the ring, first you face legendary female Jugger-naut, Snarla. Then, get ready for Moe's Tavern's very own Olympian, Barney Gumble! A strict diet of fried cheese and pork rinds has blessed Barney with a belly that'll bounce you right off the mat! So give that girth ample berth!

- Not getting hammered.

HERMAN'S MILITARY MINEFIELD MAYHEM

Nostalgic war veterans and dedicated collectors of fine military antique replicas have come by the bus load to see Herman's own Juggernaut event.

The two-part course consists of a parachute drop from the roof of the Springfield arena and then a short sprint through a minefield.

Parachute Drop

The tricky part in the parachute drop is that as you fall, stealthy Juggernauts are throwing knives and firing water-balloon mortar shells at you. Three

hits and you will plummet to the floor like a stone, and lose one of

your three runs at completing this event.

PARACHUTE CONTROLS

TO SLOW YOUR DESCENT

TO DROP QUICKER

Note: Too rapid descents lead to bumpy landings. Slow down before impact.

Minefield

Your mission is to reach the end of the mine field without stepping on any mines, and

without being hit by any water balloon shells. Mounds of dirt indicate a mine. Walk around them. Getting blown up by a mine or mashed by a shell loses you one run at this event.

To further the real military combat feel, Herman has also added authentic battlefield barbed wire. When you reach it, you will automatically start to belly crawl under it, but keep a look out for those pesky mines!

THE KRUSTYLAND HAMMER SLAMMER

Hidden at the top of 4 mammoth fair ground "test your strength" machines are 4 overly developed, angry, Juggernauts. As the event starts, these testy Juggernauts will begin to shimmy down their poles. Your task is to stop them from reaching the floor before the clock counts down to zero.

To do this, hit the base plate of each machine with your Krustyland mallet. The harder you hit, the faster the Krusty heads shoot up the pole. The faster the Krusty heads, the further the descending Juggernaut is pushed back up. **To increase the strength of your hit, swing the mallet only when the indicator on the power meter is over to the far right hand side.**

Use the gauge at the bottom center of the screen to judge which Juggernaut is nearer the floor and more of a danger...because if he succeeds, it's doomsville, man!

KRUSTYLAND CASH

You collect cash in this event by:

- Hitting a Juggernaut with a Krusty head.
- Using the "cheat" to cream a Juggernaut.

THE KWIK-E-MART DOGGIE DODGE

The aim in this event is to reach the top of a series of ledges, made up of Apu's Kwik-E-Mart dog biscuits and Mrs. Emily Winthrop's kindly donated Canine College dog cages, before any of the specially trained Doggernauts—like Chompy, Growly, Chewy and Mr. Bite—tear off any of your limbs. To help you, bones, attack-dog arm protectors, and sausage vines are scattered around the course. Lure Doggernauts into jumping off the ledges with the bones. Use each arm protector to fend off one

Doggernaut attack. Catch the swinging sausage links to get

between ledges...before the Doggernauts eat all the sausages! The last stop is the mouth of a vicious Doggernaut guard dog. Luckily, he's not that smart. Find a bone and send the beast into a short jump to doggy retirement.

Note: You can only hold one bone or arm protector at a time.

DOGGIE DODGE CONTROLS

Note:

- Touching a vine automatically puts you on it.
- Some Doggernauts can be lured to jump off ledges even without a bone. Stand near the edge and then avoid the Doggernaut as he tries to tear your shorts off. Unfortunately, this doesn't always work.

THE BONUS EVENT

Win all the events in any week of the show and you get to play a bonus round with a bonus cash bonanza! The aim of the event is to send Snarla reeling away by dropping bodybuilding weights onto each end of her barbell.

When a weight appears along the top of the wall, pick it up. Move above the left or right side of the barbell, and let go of the weight. If you hit, the weight will slide onto the appropriate side of the bar. Then, repeat the same process for the other side, and so on until this Juggernaut buckles and finally goes crawling away.

Note: Each time you attempt the bonus round, it will take more weights to defeat the Juggernaut and you will have less time to drop them.

THE BATTLE OF THE REALLY STRONG

Bart Simpson here, on my way to the Springfield Arena to do battle with The Juggernauts, my all-time TV heroes.

It isn't going to be easy. There's nobody tougher than The Juggernauts (except maybe yours truly), but I'll be fighting 'em on my own turf: Krustyland Amusement Park, Moe's Tavern, and the Nuclear Power Plant, just to name a few.

No one knows this, but I've got a whole new set of cool maneuvers AND a new technological edge - I can CHEAT!

I'm psyched. I'm ready to rock and roll. On to victory, Man!

Your pal,

BART SIMPSON
